THANK YOU

We craft integrated, user-focused digital experiences by blending strategy, design, and technology. As trusted long-term partners for high-growth tech companies, we build scalable websites with modular CMS platforms, intuitive product design systems, seamless UI/UX, optimized SEO, and adaptive brand identities that grow alongside evolving business needs.

Our clients include innovative enterprises and startups that power everyday life—from healthcare and logistics to finance, communication, and media. These complex businesses require digital experiences that are not only robust and scalable but also intuitive and people-friendly. By questioning assumptions and reimagining possibilities, we design products and services that enhance efficiency, foster trust, and improve lives on a meaningful scale.

OUR STORY

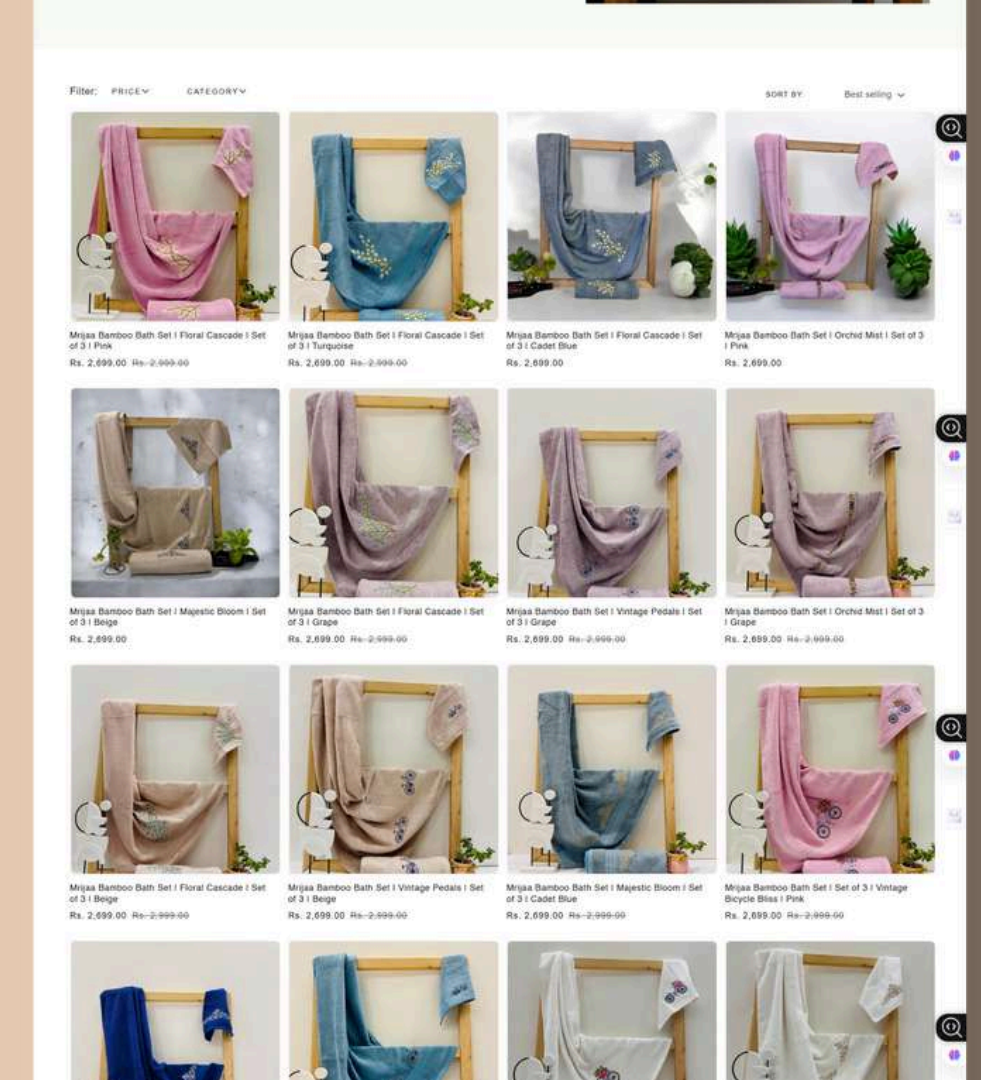

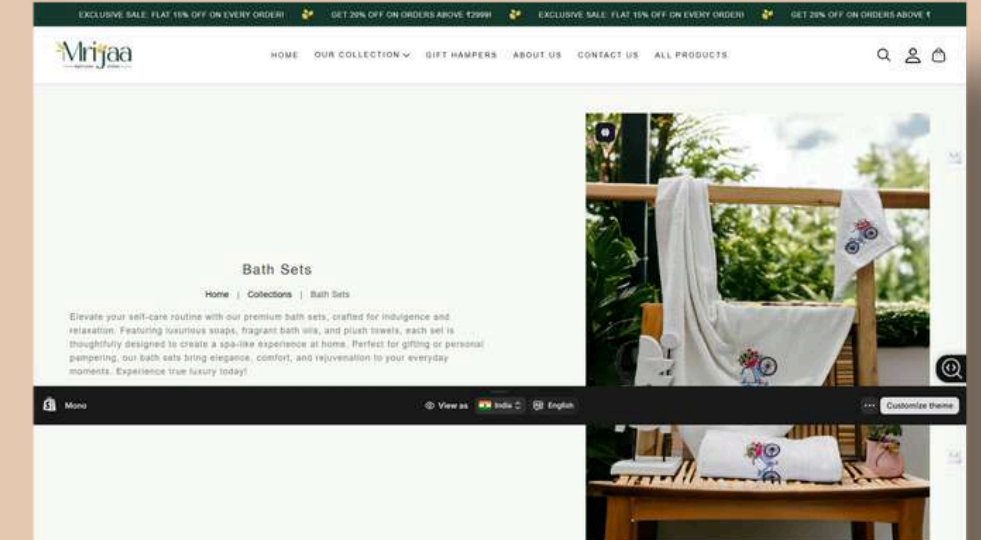

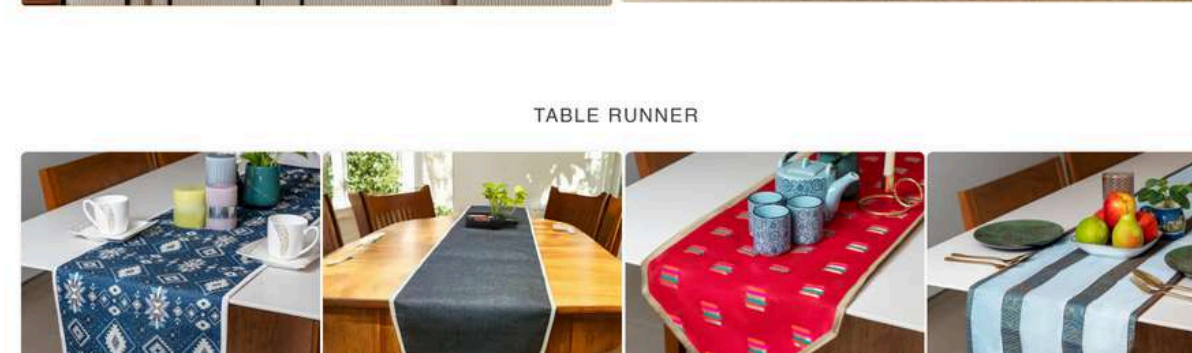

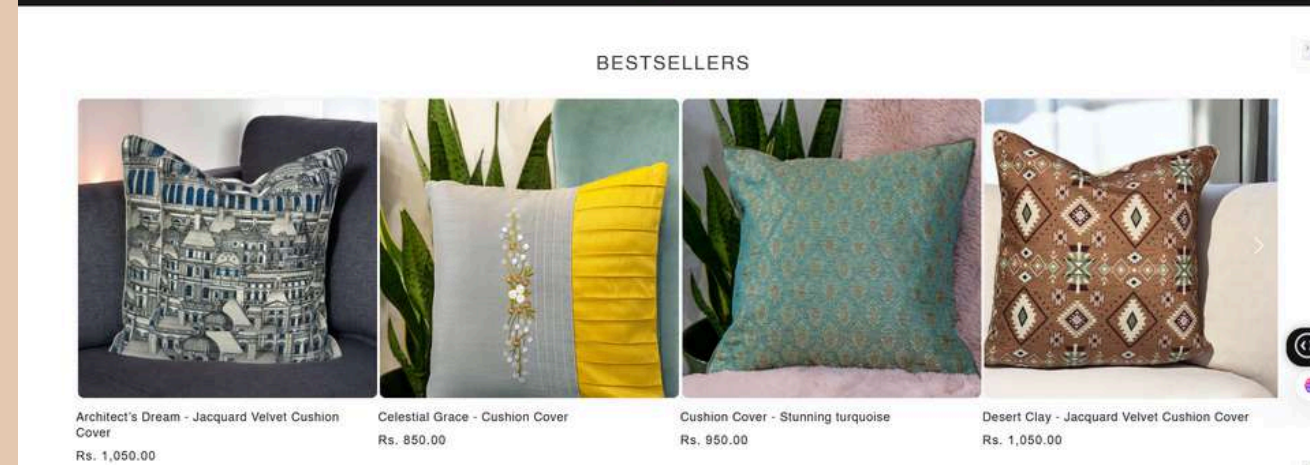

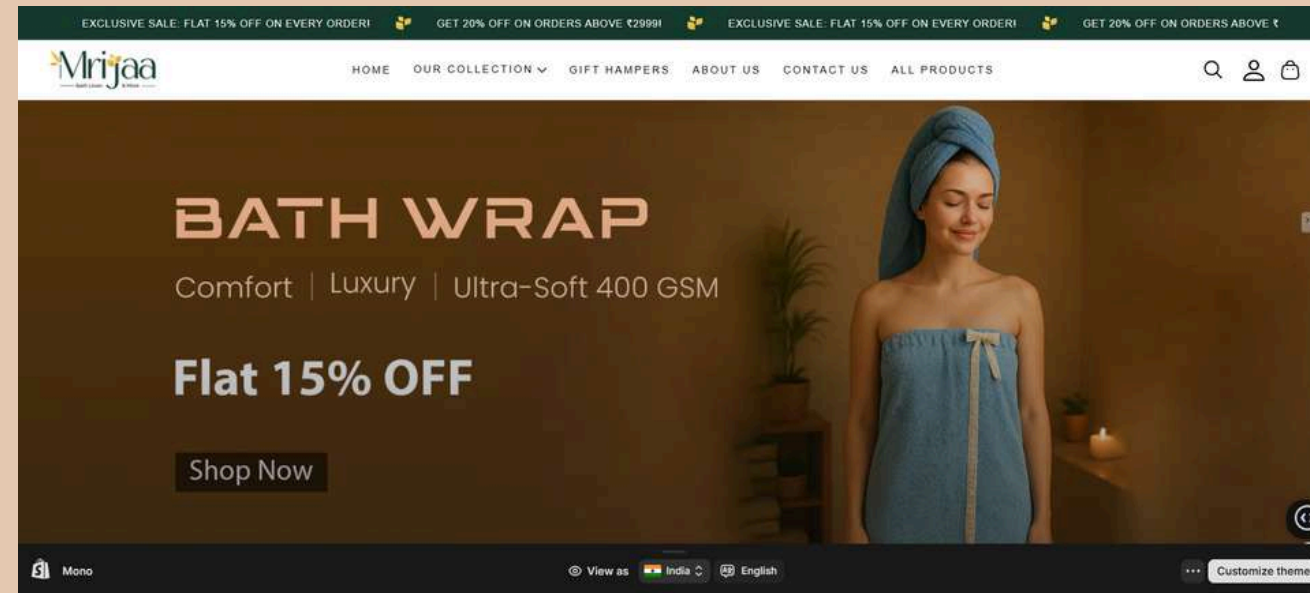

WOVEN WITH CARE, DESIGNED TO LAST

Two friends met 20 years ago, connected by a shared dream — to one day build something meaningful together. What brought them closer was more than friendship; it was a deep commitment to the environment, sustainable living, and thoughtful design.

Mrijaa was born from that very thought — a vision rooted in care, purpose, and love for the planet.

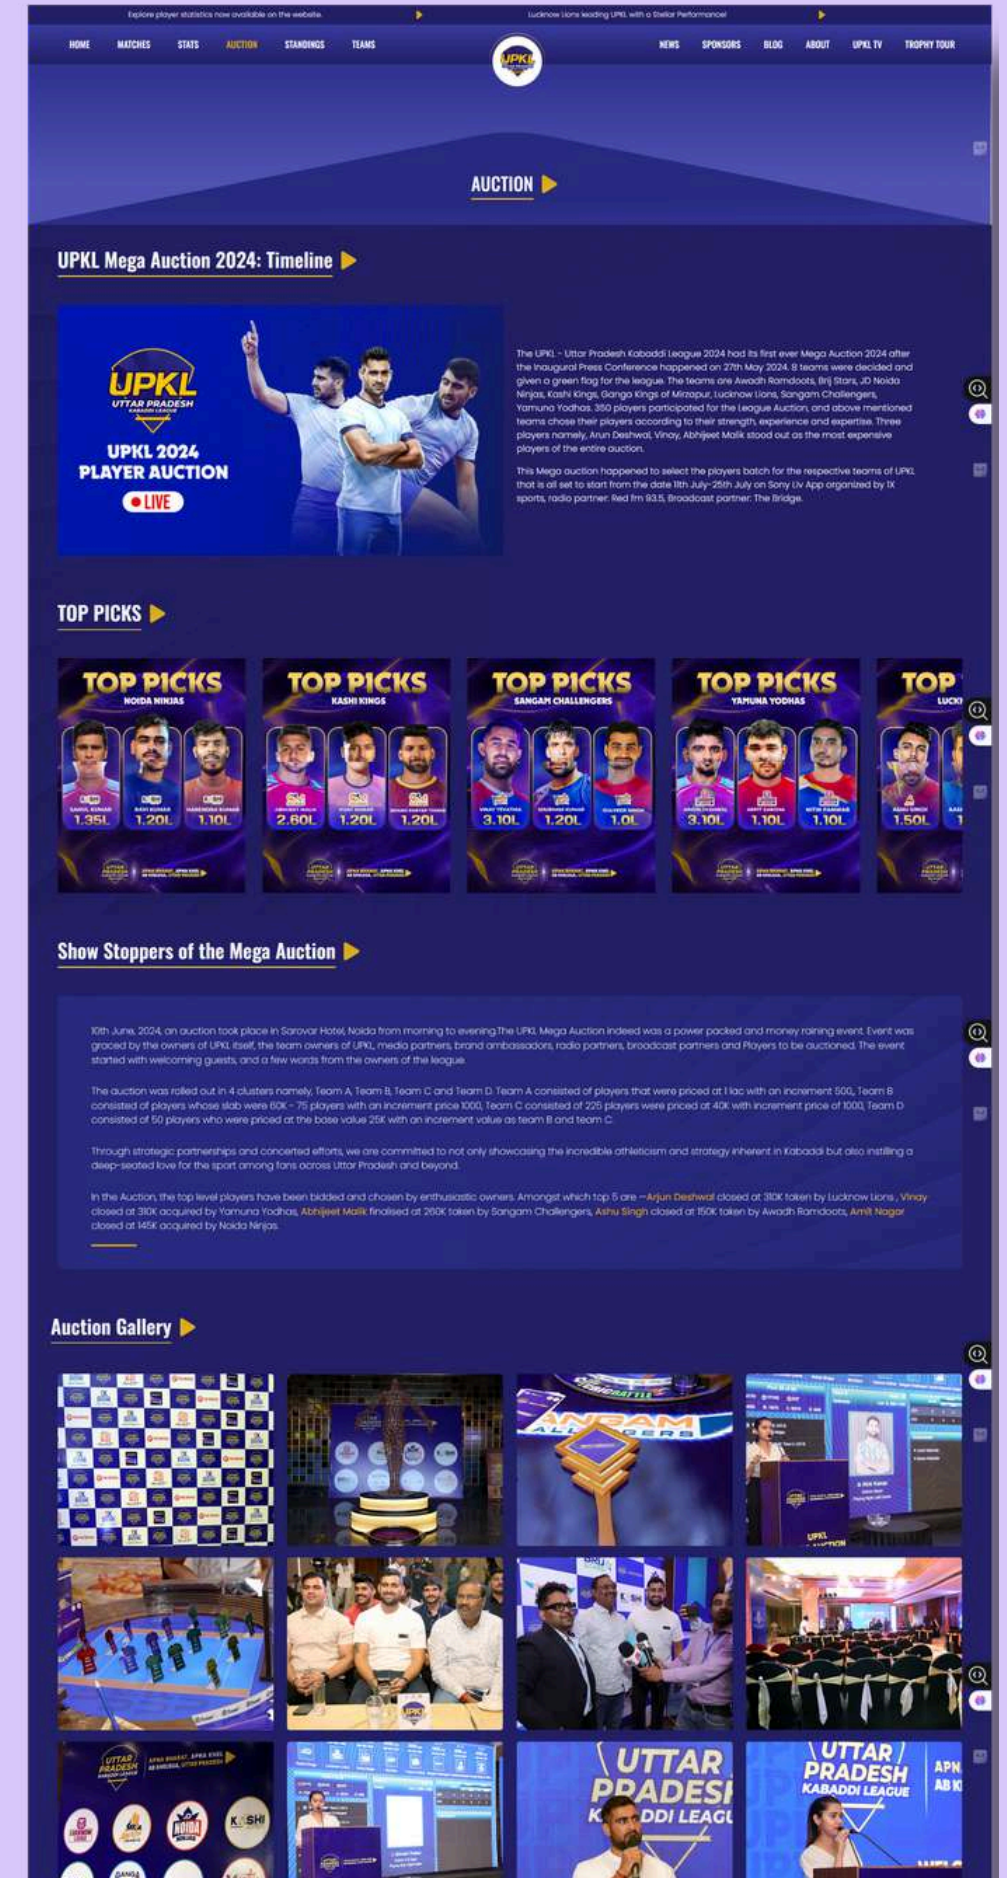

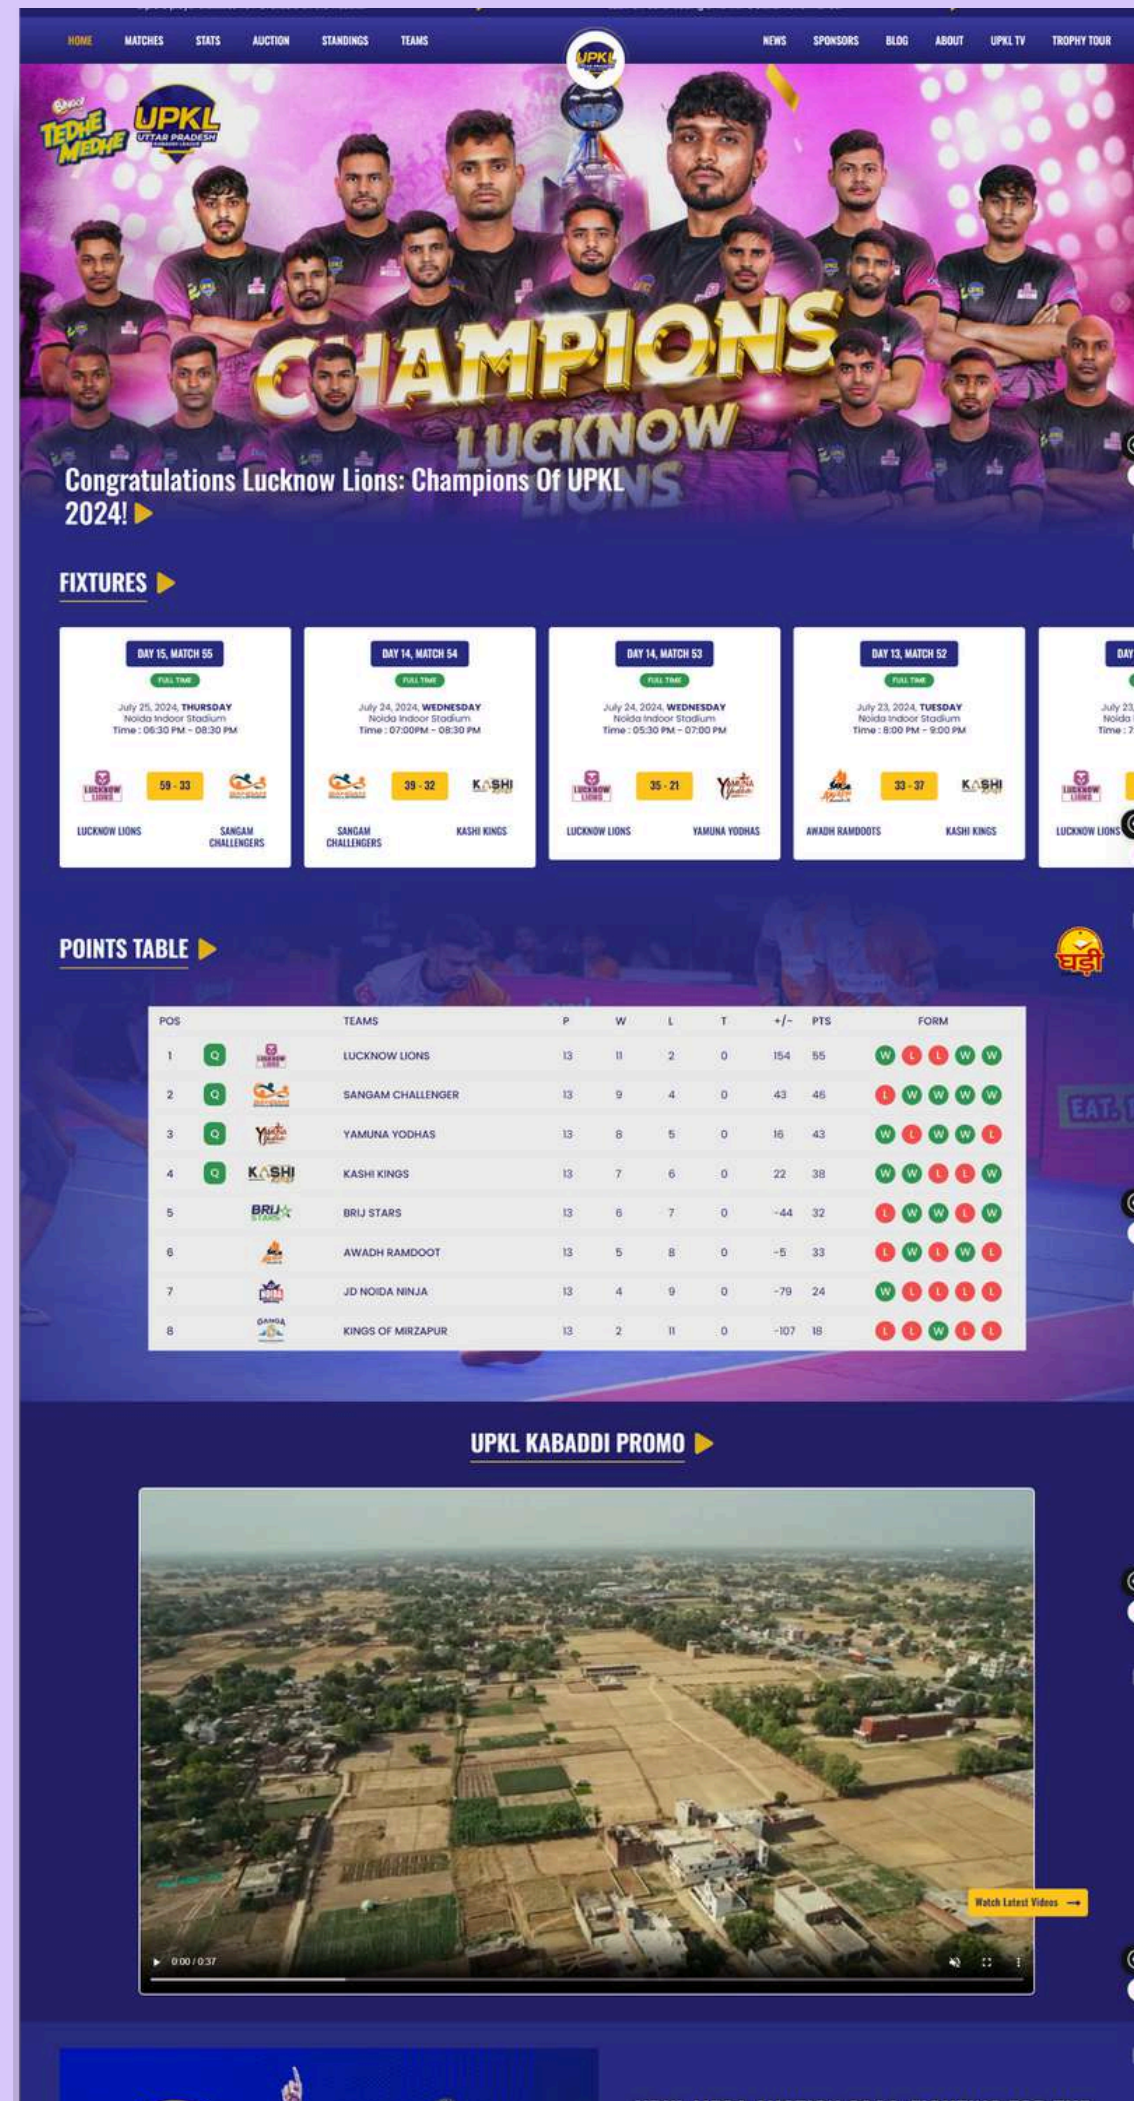

At Mrijaa, we craft eco-friendly products using sustainable, natural fabrics that are gentle on the earth and beautiful in your home. Each piece is thoughtfully designed to bring comfort, and elegance to everyday living.

From soft bamboo bath linens to warm home décor, Mrijaa is more than a brand — it's a story of friendship, purpose, and the joy of creating mindfully.

SEARCH ENGINE OPTIMIZATION (SEO)

The image features a dark, textured background with a subtle gradient. In the center, the text "SEARCH ENGINE OPTIMIZATION (SEO)" is displayed in a bold, white, sans-serif font. The text is flanked by decorative elements consisting of multiple thin, blue, wavy lines that curve and overlap, creating a sense of motion and depth. These lines are positioned in the corners and along the sides of the frame, framing the central text.

OUR REPORTS

OUR EXPERTISE

Our experts combine extensive industry and functional expertise with diverse perspectives.

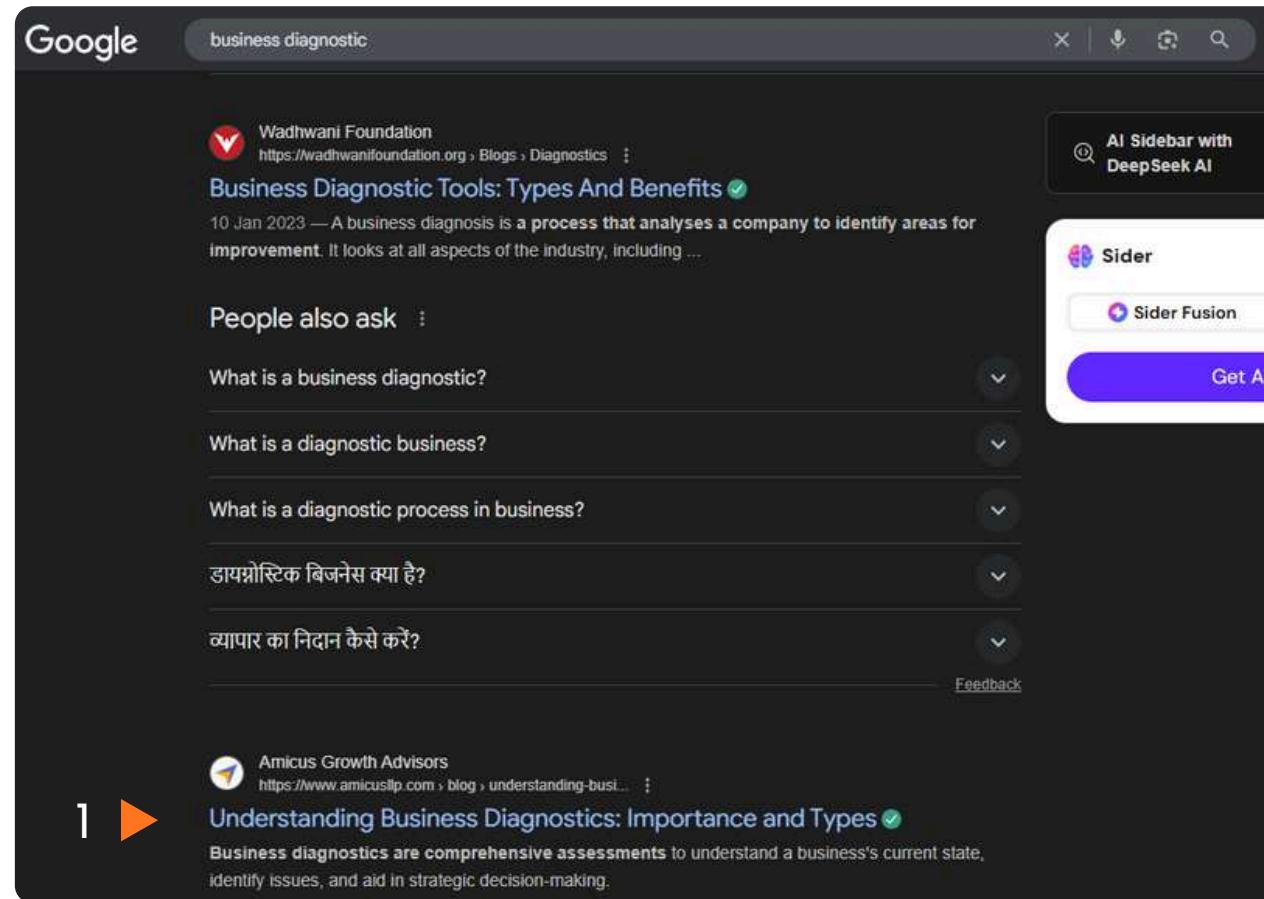

Amicus LLP is a trusted partner in business transformation, turnaround management, and performance improvement. With decades of financial and strategic expertise, they serve corporates with CFO services, M&A advisory, restructuring, and compliance solutions.

Challenges

Amicus LLP needed to strengthen its online presence to reflect its leadership in consulting and advisory. Despite a strong offline reputation, the website struggled with limited visibility, low keyword rankings, and reduced lead inflow.

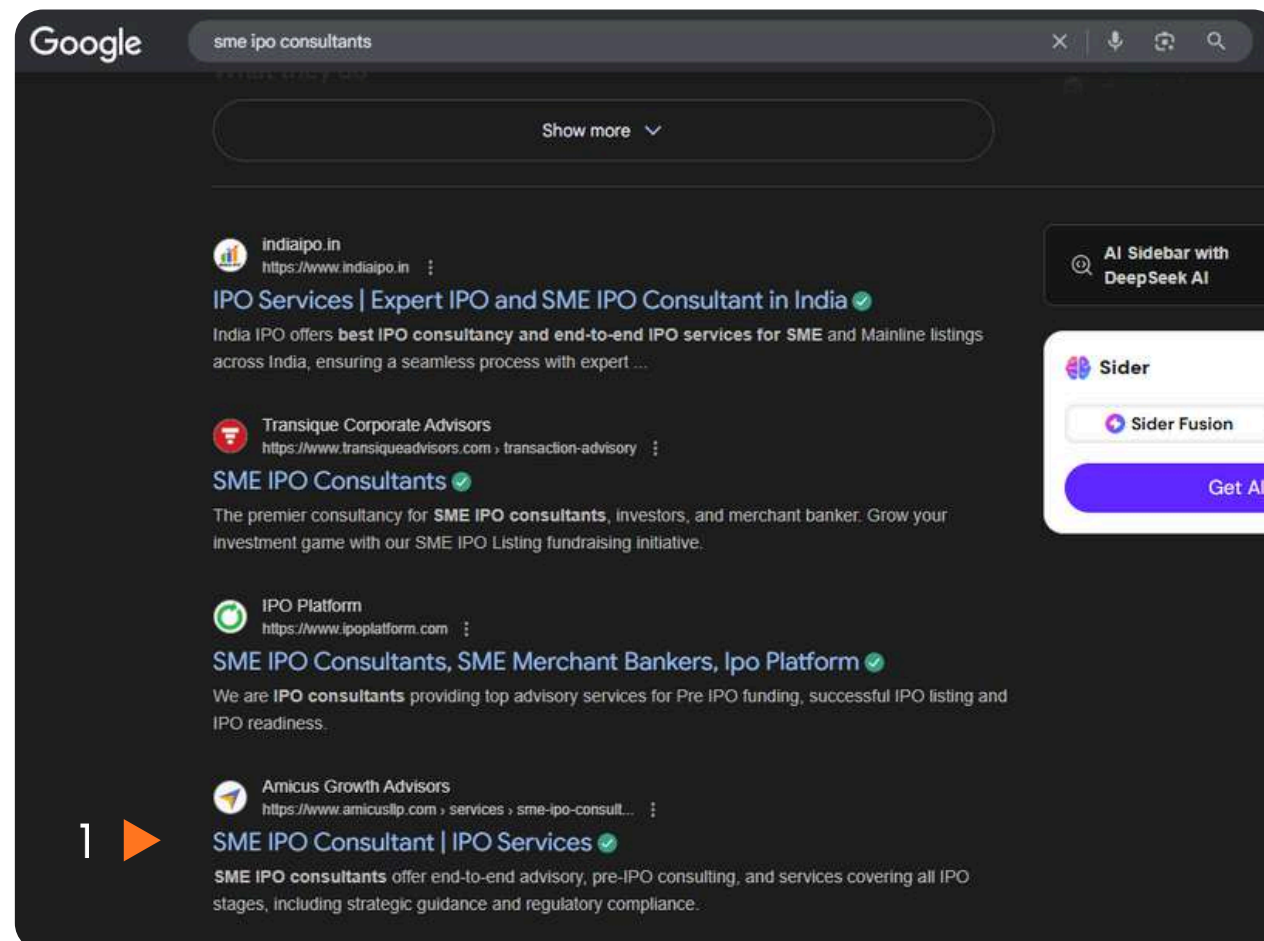

How We Help?

We optimized the website with targeted on-page SEO, crafted keyword-rich service pages, built authoritative backlinks, and developed engaging thought-leadership content. This improved search engine rankings, enhanced brand credibility, and positioned Amicus LLP as a go-to name in its domain.

Chenab Gourmet is India's leading gourmet food importer and distributor, offering premium international brands across categories like sauces, condiments, baking ingredients, pasta, chocolates, and beverages.

Challenges

Despite being a leader in gourmet distribution, Chenab Gourmet struggled with discoverability in search results. Many food enthusiasts and B2B clients searching for premium international ingredients were unable to find their offerings online due to weak keyword rankings and limited content optimization.

Boajal Survey is a professional surveying and land development service provider, offering expertise in land surveys, GIS mapping, and engineering solutions.

Challenges

The website lacked authority in niche keywords and was not optimized for technical SEO, leading to poor search rankings. As a result, potential clients were not able to easily find their services online.

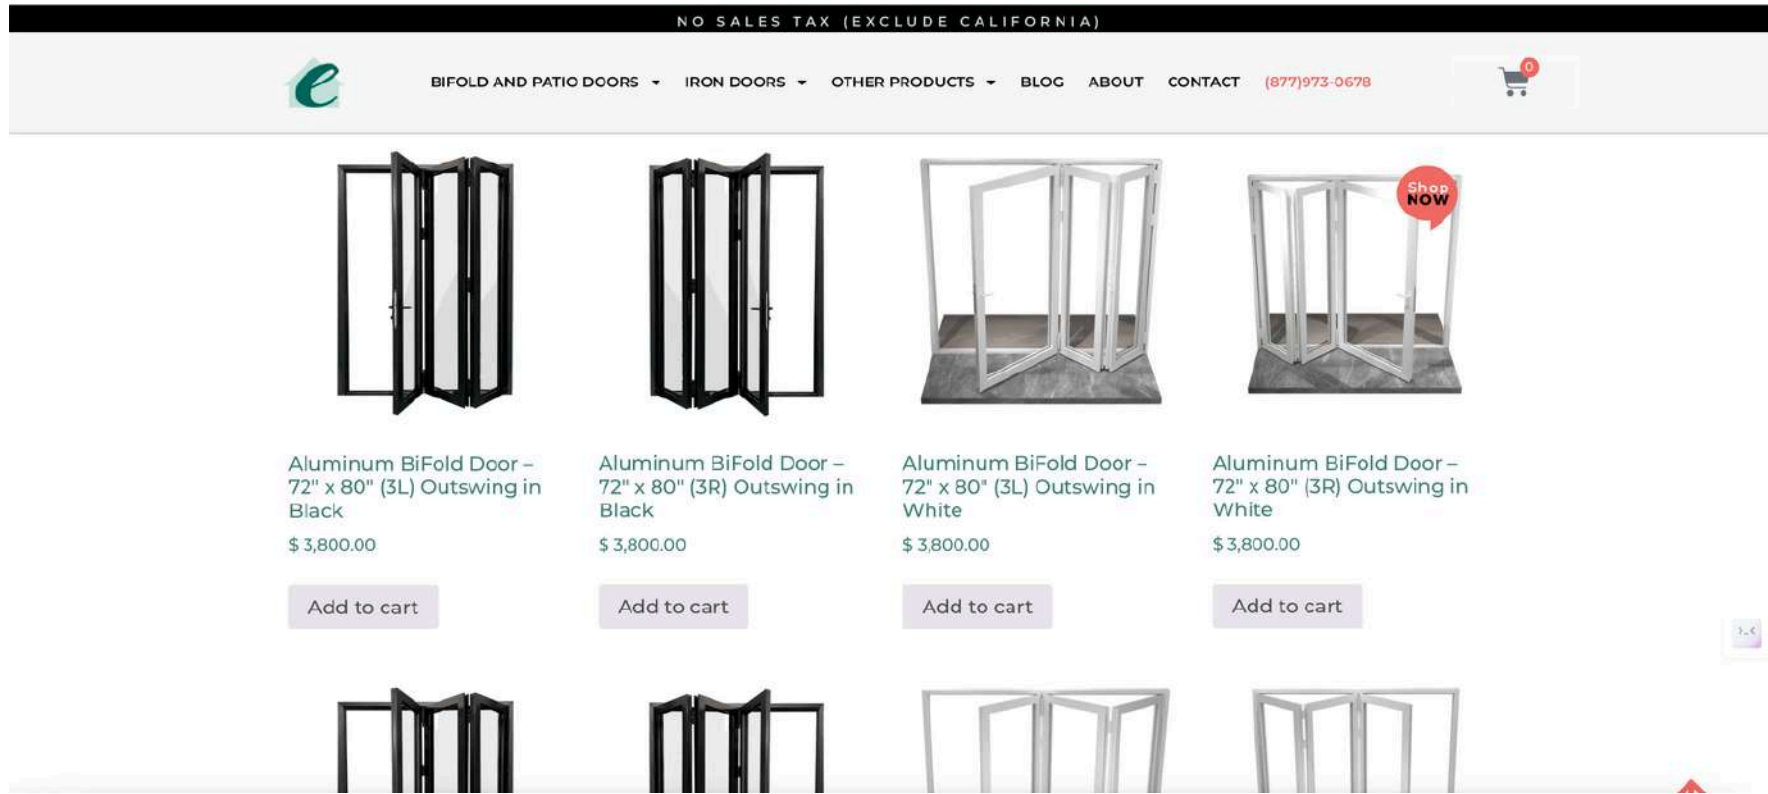

How We Help?

We implemented technical SEO improvements, optimized service pages with industry-specific keywords, and built authoritative backlinks from engineering and infrastructure sources. The campaign boosted search engine presence, reduced bounce rate, and attracted more qualified leads in surveying and GIS services.
